A Smarter Way Ahead!

www.howellsmart.com

About Us

Howell Company specializes in innovative smart home solutions, offering a wide range of products including smart switches, retrofit switches, smart lights, and smart IR blasters. Dedicated to enhancing modern living, Howell combines cutting-edge technology with user-friendly design to provide seamless control and automation for your home.

Easy To Install

Howell conveniently installs your smart home lights and their other products. All you need to do is trust Howell and our installation process.

Control From Anywhere

Thanks to smartphones or smart voice assistants, smart home devices are easier to control from anywhere – even outside your home!

Custom & Retrofit

We can help you customize your smart home lighting and home security as per your requirements. We won't leave until you're satisfied.

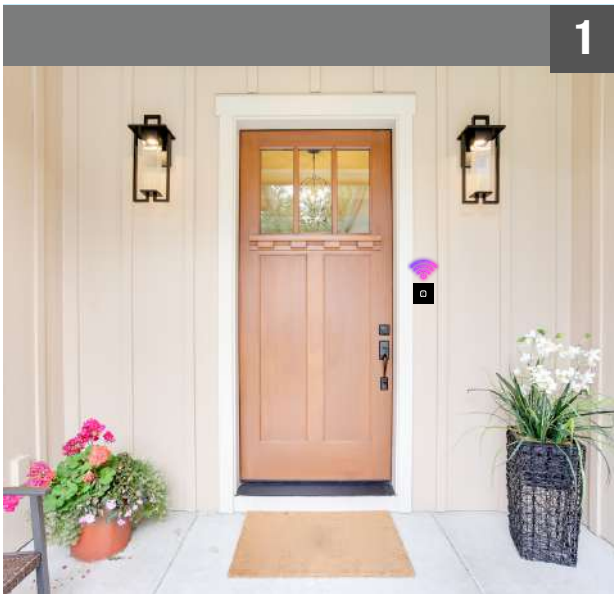

THE PERFECT TOUCH TO YOUR DOORWAY!

A bell switch is a sleek, essential feature for any entrance, transforming a simple press into a warm welcome. Its intuitive design ensures your guests are greeted with a pleasant chime, adding both functionality and charm to your home.
